Version Control:	**Git, GitHub**
Databases:	**PostgreSQL, MySQL, SQLAlchemy, Django ORM**
Web Scraping:	**Beautiful Soup, Selenium**
Mobile development:	**React native, expo , Native wind , nativewindUi**

PROFESSIONAL EXPERIENCE

Frontend Developer   **March 2024 - present**
PCI Infotech   *Jammu*

- Developed and maintained responsive web applications using **Next.js** and **React.js**.
- Optimized web applications for maximum speed and scalability, improving performance by 30%.
- Collaborated with designers and backend developers to enhance UI/UX and application functionality.

Frontend Developer   **July 2023 - February 2024**
BlackCap IT   *jammu*

- Implemented interactive user interfaces and ensured cross-browser compatibility.
- Enhanced user experience by integrating modern frontend technologies and best practices.
- Participated in code reviews and contributed to improving code quality and maintainability.

Django Intern   **April 2023 - May 2023**
Auctopus Technology   *Remote*

- Assisted in backend development tasks using Django framework.
- Gained hands-on experience in API development and database management.
- Collaborated with the development team on project planning and execution.

EDUCATION

Bachelor of Science (B.Sc) , Cluster University of Jammu   **2017 - Dec 2020**

PROJECTS

JKcarmart : - a digital marketplace for pre-owned cars

Live link
JKcarmart

Developed the responsive front-end for **JKCarmart**, a second-hand car sales web application, using **Next.js** and **React**.

– Implemented key features such as a search and filter system, car listing pages, and user dashboards to enhance the buying and selling experience.

– Utilized **React's component-based architecture** to build a modular and scalable user interface, improving code reusability and maintainability.

REME – Revolutionary WhatsApp Claim Management Software

Live link
reimburseme

Developed an AI-powered chatbot using CopilotKit to streamline claim management.

– Integrated currency conversion APIs for accurate and dynamic financial calculations.

– Integrations with QuickBooks APIS (Intuit developers) , to push data into QuickBooks, expenses, journal, Ledger

– **Technologies Used**: Next.js, API Integration, AI Tools

OpenAI Chatbot

Created a chatbot utilizing OpenAI APIs with advanced Natural Language Processing features.

– Enabled interactive and intelligent conversations for user engagement.

– **Technologies Used**: OpenAI APIs, Python, NLP

Multivendor Food Marketplace (Zomato Clone)

Developed authentication systems for both buyers and sellers, enhancing security.

– Implemented features for vendor management, order processing, and user reviews.

– **Technologies Used**: Django, Heroku, Render.com

IMDb API Clone

Built a RESTful API that replicates IMDb functionalities for movies and TV shows.

– Managed data models and serialization using Django REST Framework.

– **Technologies Used**: Django REST Framework, PostgreSQL

STRENGTHS

– **Consistent Learner**: Continuously updates skills with the latest industry trends and technologies.

– **Persistent**: Committed to overcoming challenges through innovative solutions.

– **Confident**: Able to take initiative and lead projects effectively.

– **Adaptable**: Quick learner who thrives in fast-paced environments.
